OPTONICA

LED - Waterproof Light

USER MANUAL

GENERAL

Read the user manual and keep it.

This user manual belongs to this LED damp room light. It contains important information regarding safety and use. To improve clarity, the LED damp room light will hereafter be referred to as the "light."

Read this user manual carefully, especially the safety instructions, before connecting the light.

Keep this user manual for future use. If you pass the light on to third parties, make sure to provide this user manual as well. This user manual can be requested as a PDF file from our customer service.

Explanation of Symbols

The following symbols and signal words are used in this user manual and/or on the packaging of the light.

This signal word indicates a medium-level hazard which, if not avoided, could result in death or serious injury.

This signal word warns of possible material damage.

Products marked with this symbol are not dimmable.

• INTENDED USE

This light is exclusively suitable for use in enclosed rooms, damp rooms, and covered outdoor areas. The light can be mounted on all normally flammable surfaces. The light is intended for private use only and is not suitable for commercial use.

Use the light only as described in this user manual. Any other use is considered improper and may result in material damage.

SCOPE OF DELIVERY

1 LED damp room light 2 mounting brackets

4 wall plugs (anchors) 1 user manual

SAFETY INSTRUCTIONS

Any damage caused by failure to observe this user manual will void the warranty! No liability will be accepted for consequential damage or material and/or personal injury caused by improper handling or non-compliance with the instructions!

For safe use, the user must have read and understood this user manual before using the device for the first time.

The light must only be installed by authorized professionals in accordance with the applicable electrical installation regulations

Always observe the technical specifications on the packaging and in this user manual.

Never leave children unattended with the packaging material, as there is a risk of suffocation, among other dangers!

Always keep children away from the product. as this device is not a toy and contains small parts that may be swallowed!

Children or individuals who lack the knowledge or experience to use the device, or who have physical, sensory, or mental impairments, should not use the device without supervision or guidance from a responsible person in charge of their safety.

AVOID THE RISK OF DEATH FROM ELECTRIC SHOCK!

Before use, ensure that the existing mains voltage matches the required operating voltage of the device (220-240 V \sim 50 Hz).

A damaged device poses a life-threatening risk of electric shock. Do not use the device if you notice any damage. In case of malfunction, immediately turn off the power .vlaaus

CAUTION! $\frac{1}{2}$ RISK OF INJURY AND/OR **ELECTRIC SHOCK!**

In case of damage, repairs, or other issues with the light, contact a qualified electrician. Never open any of the electrical components or insert objects into them. Such actions pose a life-threatening risk of electric shock. Do not attempt to repair the device or replace the light source yourself. The light source is non-replaceable; once the light source reaches the end of its lifespan, the entire light must be replaced. The device, including the light source, contains no parts that can be maintained by the consumer.

Do not look directly into the light's beam or its reflection. Never point the beam of the light directly at people. This could lead to glare, causing accidents. If the direct or reflected beam of the light hits your eye, close your eves deliberately and immediately move your head out of the beam. Never touch the light when it is turned on or becomes hot

MAINTENANCE & CLEANING

CAUTION! $^{\prime}!$ RISK OF DAMAGE TO THE DEVICE!

Note:

The device is maintenance-free.

The LEDs cannot be replaced. Before cleaning, disconnect the light from the power circuit by turning off the fuse. Then wipe the device with a dry or slightly damp cloth. Do not use abrasive or sharp objects, nor aggressive cleaning agents. Do not use solvents. Regularly check the light for any

The cleaning process is limited to the surface only: no moisture should reach any connection areas or parts carrying mains voltage. Never immerse the light in water or other liquids.

STORAGE

Always store the light in a dry place, protect ed from direct sunlight. Keep the light out of reach of children and securely closed.
